

## Target India M.Tech. Fellowships

# CDS

Department of Computational and Data Sciences

### About Target India:

Target Corporation (NYSE: TGT) is one of North America's largest discount retailers and a Fortune 50 company with more than \$73 billion in annual revenue.

Target India set up in 2005 operates as a fully-integrated part of the global team. Located across two locations, Embassy Manyata Tech Park and Embassy Golf Links, Target India is the extended headquarters of the company. Over 2,800 team members in Bangalore are proud to be engaged in work that supports Target's strategy across business areas like technology, marketing, human resources, finance, merchandising, supply chain, and analytics & reporting.

### About the Fellowship:

Target India M.Tech. Fellowship is instituted at IISc and aimed at attracting highly talented students in the area of data/text mining (including natural language processing) and computer vision (including deep learning). The fellowships will be awarded to two of the incoming (2018-2019) M.Tech. (Computational and Data Science) students.

### Entitlements of the Fellowship:

- Enhanced fellowship of Rs. 16,000 per month for 24 months
- Travel cum contingency amount of Rs. 1,10,000 for international/national travel and other expenses to support research including buying a laptop
- Internship of three months during the summer of 2019

### Eligibility & Selection:

All M.Tech. (Computational and Data Science) students starting in August 2018 and wish to pursue their dissertation project in the area of

1. data/text mining and natural language processing with Prof. Partha Talukdar as the dissertation advisor.
2. computer vision and deep learning with Prof. Anirban Chakraborty as the dissertation advisor.

The selection committee will comprise CDS department faculty members and representatives from Target Corporation India.
