About the Department of Computational and Data Sciences (CDS)

CDS is an engineering department that combines computer and data **systems**, and numerical and analytical **methods**, to advance emerging engineering and enterprise **applications**. We conduct interdisciplinary research on data analytics and machine learning, big data systems, high-performance computing, computational science and engineering, mathematical modelling and numerical analysis. Our graduates are highly sought, and join top industry, academia & research labs worldwide, with among the highest pay package within IISc. *Apply today!*

About the Indian Institute of Science (IISc)

IISc is the **top-ranked university** in India [NIRF] and among the **top 20 globally** in emerging economies [THE]. We offer a post-graduate environment that is conducive to impart a world-class education to train future leaders in science and technology. Students and faculty at IISc conduct pioneering research, and apply technological innovations to advance national and social initiatives. Being situated in a cosmopolitan city and technology hub like Bangalore, IISc also has close ties with industries and start-ups to enable a holistic education.

Special Initiatives for New Faculty Members

- Endowed Young Investigator (YI) awards providing a top-up salary of Rs. 25000 per month and a research grant of Rs. 3 Lakhs per year are available, on a competitive basis, during the first three years.
- Well-established mechanisms are available for interaction with the industry, and other professional bodies, for research projects as well as for consultancy.
- Several competitive travel grants are available for faculty members (as well as for students), supported by the Institution of Eminence grants and a grant from the Tata Trusts. These travel grants are for presenting papers in top tier conferences, prestigious workshops, and for collaborative research.
